

Go Wireless for Elevator CCTV Cameras

No More Hanging & Broken Cables for Elevator CCTV's, Switch to 4ipnet's & Go Wireless

"One of the most difficult challenges of deploying CCTV in Elevator or Lift is Network Connectivity" Go Wireless with 4ipnet's Most Reliable Wireless Point-to-Point Connectivity from top of the lift to the roof"

OWL630

4ipnet

**Industrial Grade, Weather
Proof Outdoor Access
Points**

OWL530

- **4ipnet OWL630** is an enterprise-grade, concurrent dual-band 802.11ac outdoor access point, designed Specifically to withstand harsh weather conditions in outdoor and industrial environments. Featuring two 3x3 MIMO radios that can each support up to 450 and 1300 MBps data rates in the 2.4 and 5 GHz bands respectively

- **4ipnet OWL530** is an enterprise-grade, dual-band 802.11n outdoor access point, designed specifically to withstand harsh weather conditions in outdoor and industrial environments. Featuring a 2x2 MIMO radio that can support up to 300 MBps data rate
- Operating Temperature: -30°C (-22°F) to 70°C (158°F)
Operating Humidity: 0% to 95% non-condensing
IP68 Rating

Network Schematic Showing Deployment of 4ipnet Outdoor Access Points to offer Wireless Network Connectivity to CCTV cameras Inside the Elevator
